

THE DUST REDUCTION ADVANTAGE

with Bosch Particle Control

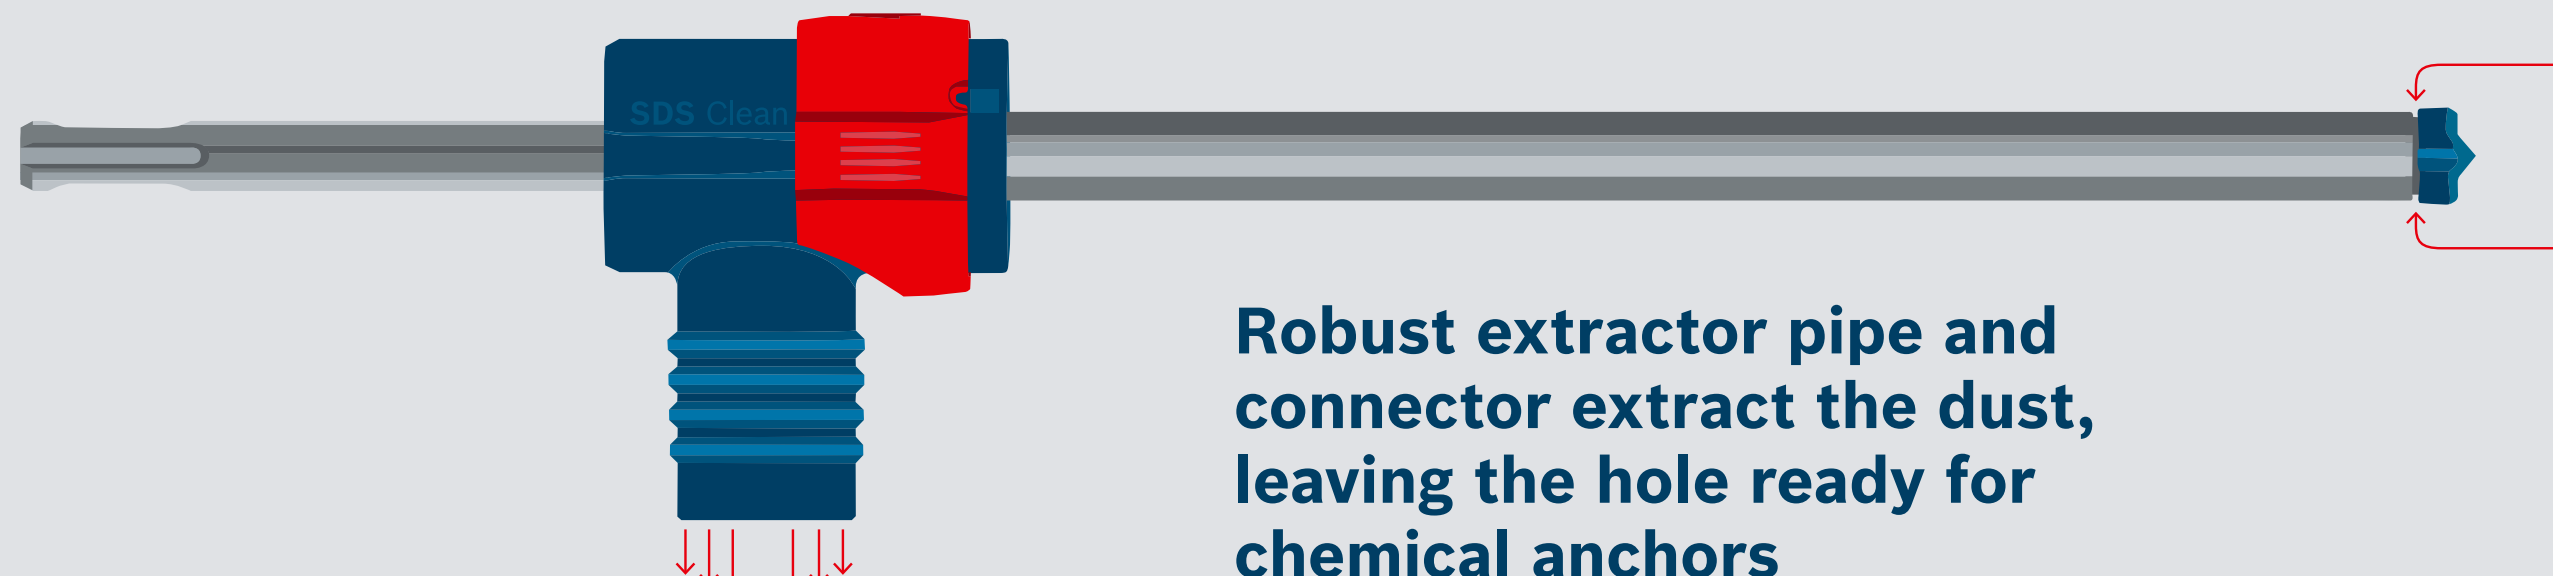

Preparing holes for chemical anchors is easier with advanced dust extraction drill bits

DUST REDUCTION

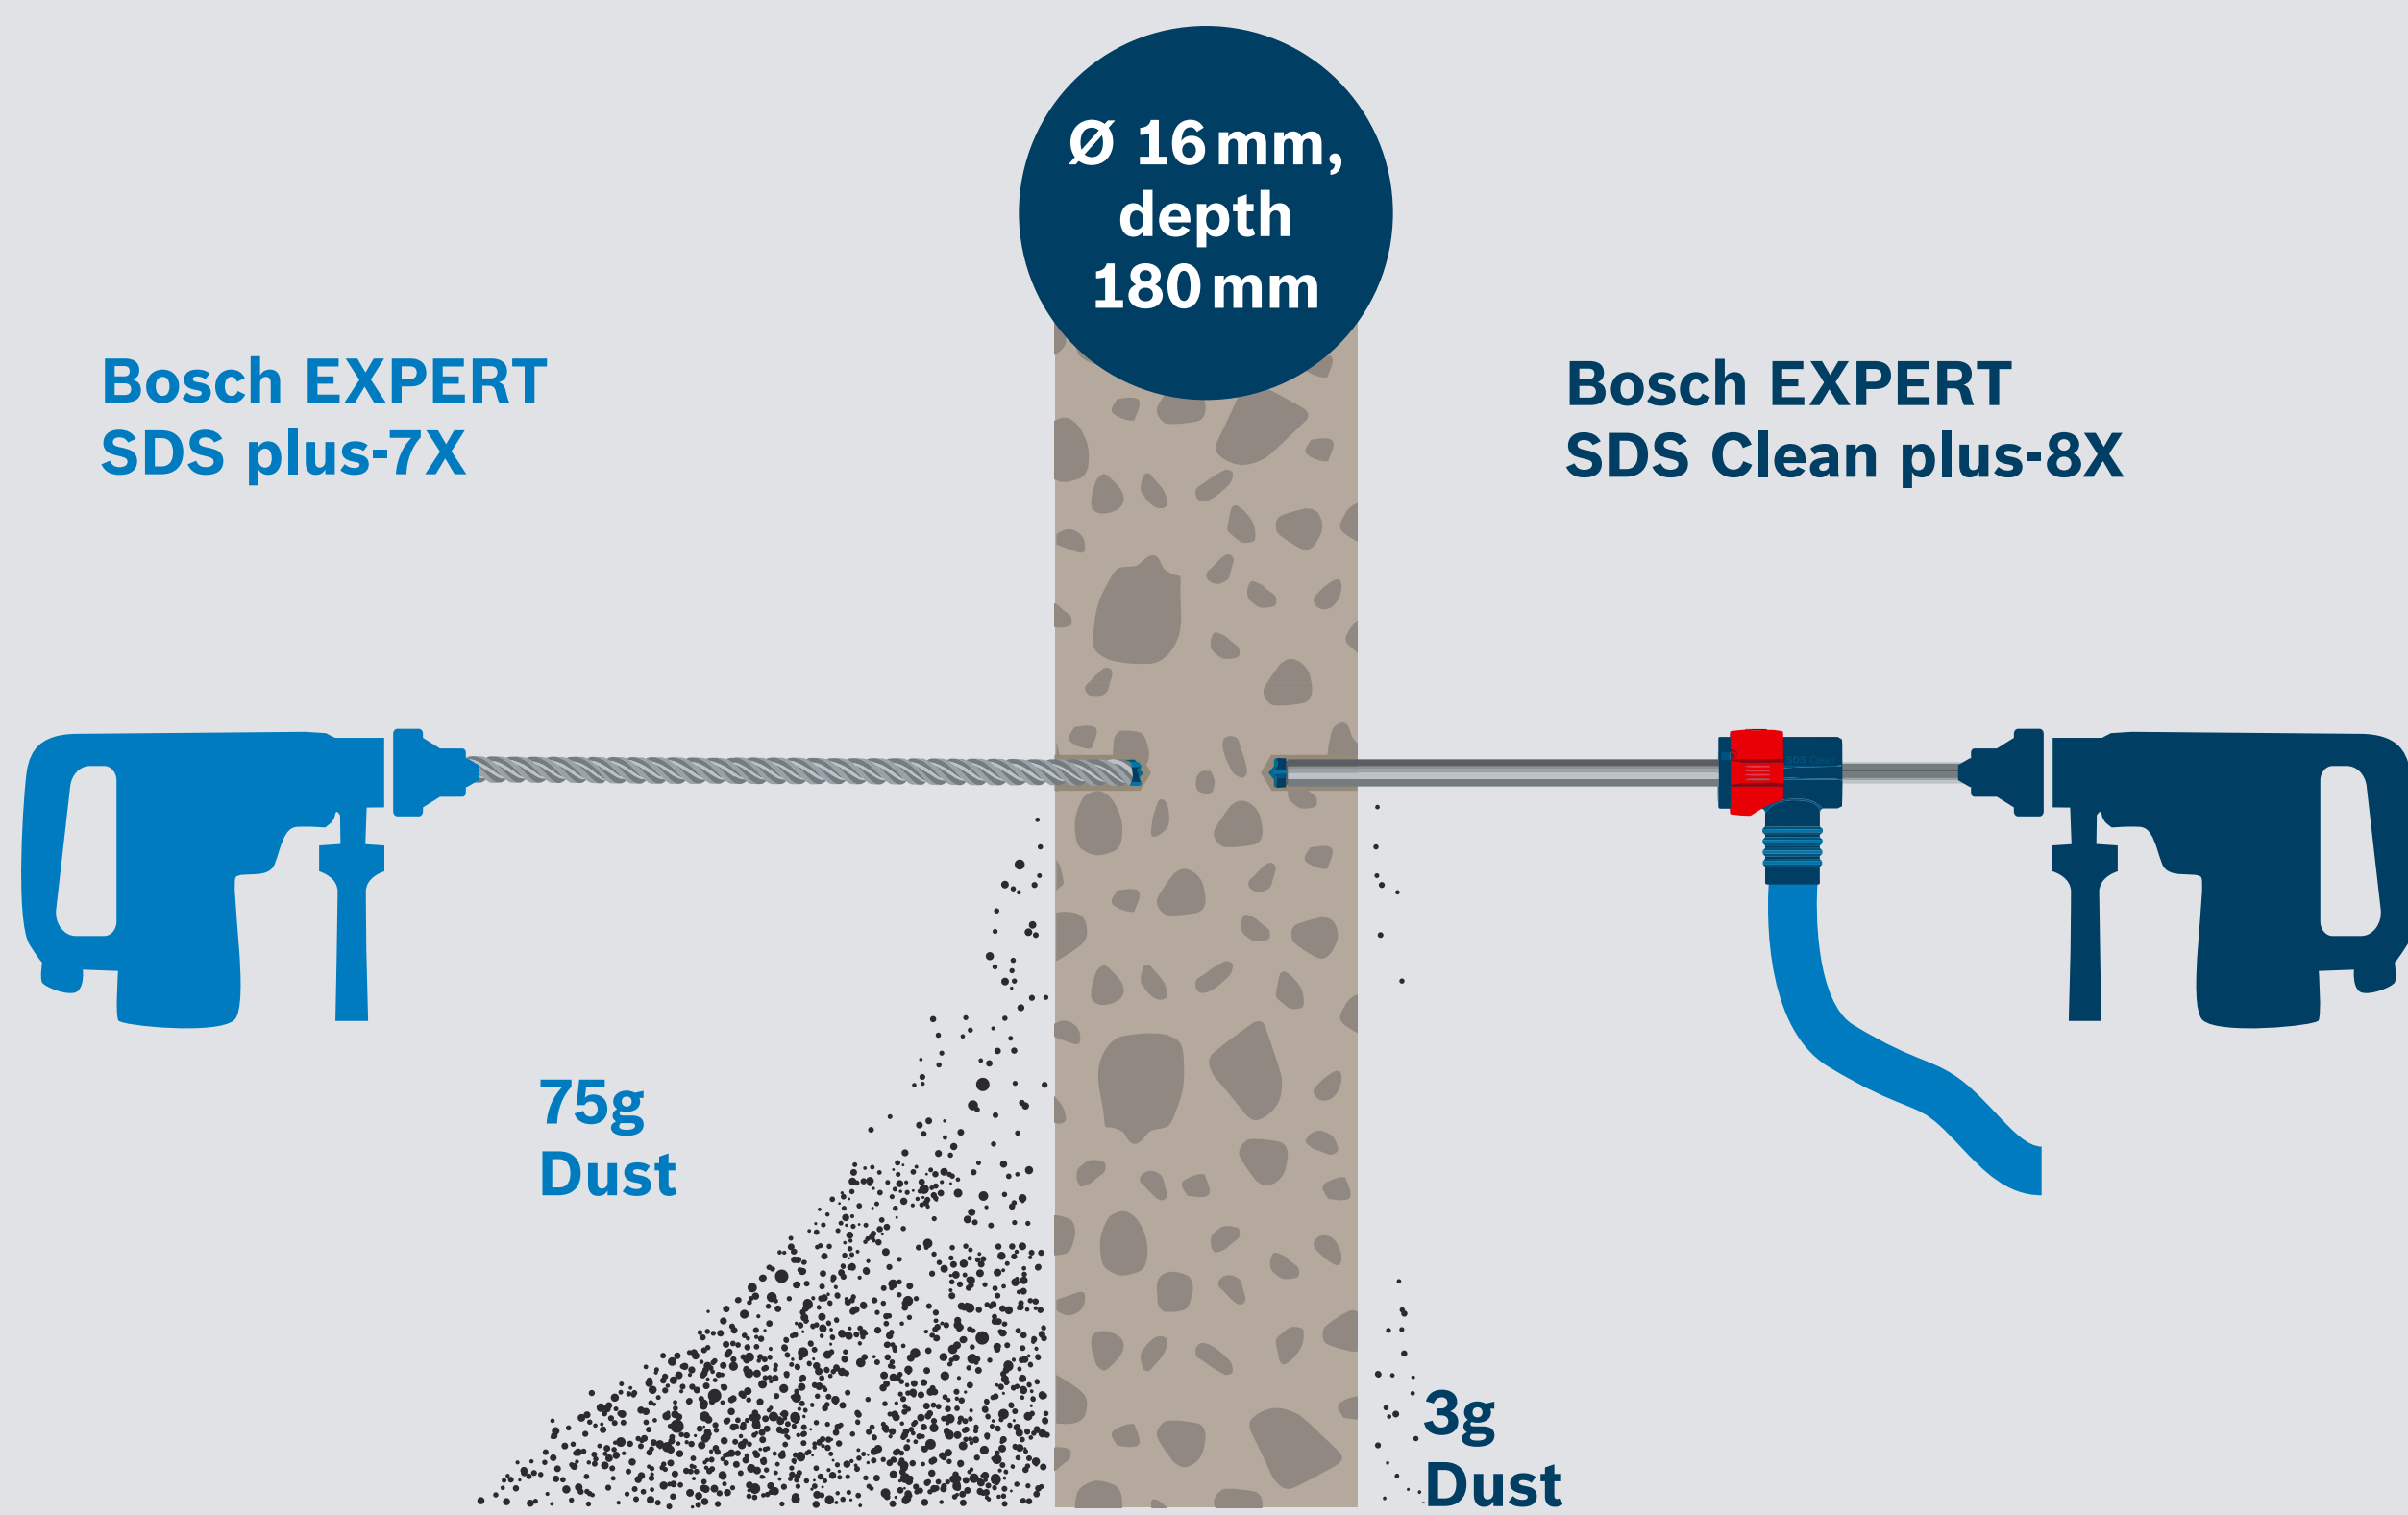

> CLEAN HOLES AS YOU DRILL

EXPERT SDS Clean plus-8X drills and removes dust at the same time

Robust extractor pipe and connector extract the dust, leaving the hole ready for chemical anchors

> AVOID DUST IN ONE STEP

> SAVE TIME CLEANING HOLES

With Dust Reduction you can skip time-consuming cleaning rounds

Bosch EXPERT SDS plus-7X

Installing chemical anchors**

Bosch EXPERT SDS Clean plus-8X

30% time saving

You no longer need blow-out pumps and hole brushes to prepare holes for chemical anchors

Ø 12 mm – 32 mm

**Before installing a chemical or mechanical anchor, the cleaning process specified by the manufacturer must be followed in accordance with the operating instructions for a clean borehole.

Dust Reduction accessories mean cleaner holes and less dust in the air you breathe

*vs. Bosch SDS plus-7X
