

# THE DIAMOND TECHNOLOGY ADVANTAGE

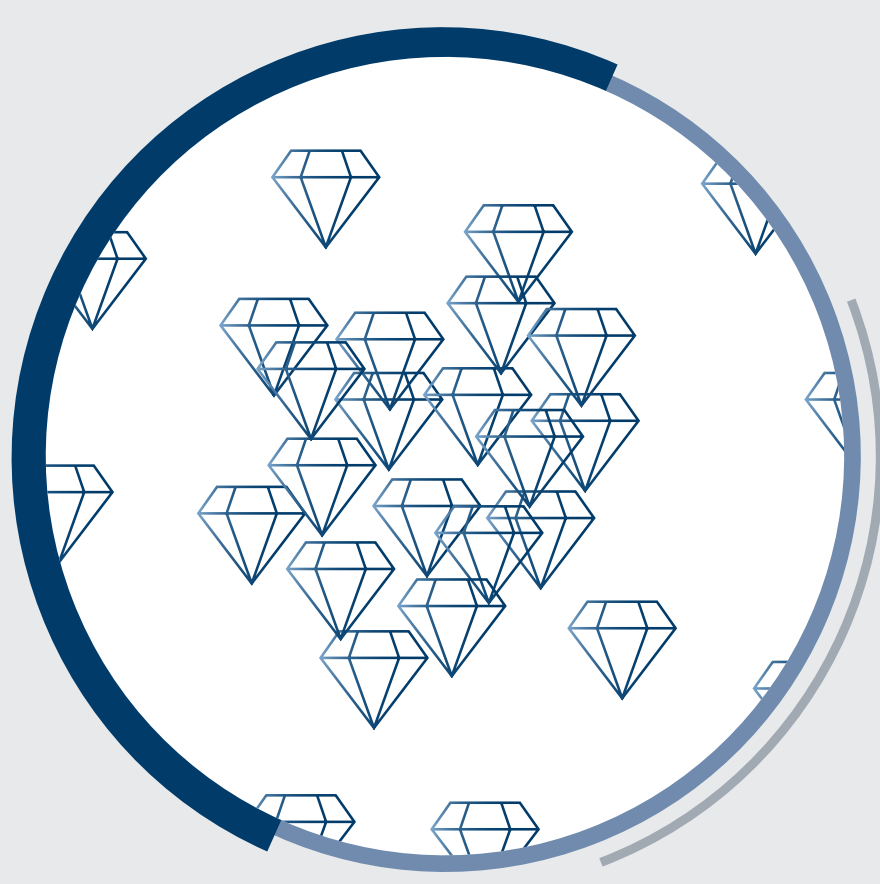

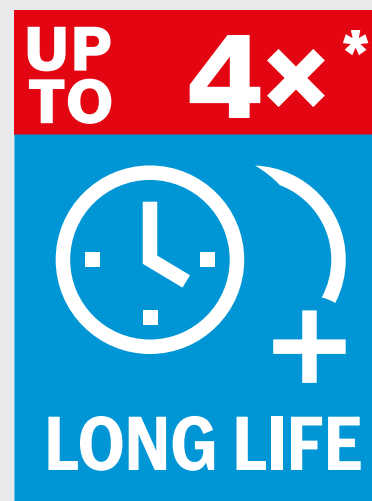

How premium diamonds and advanced designs ensure top performance

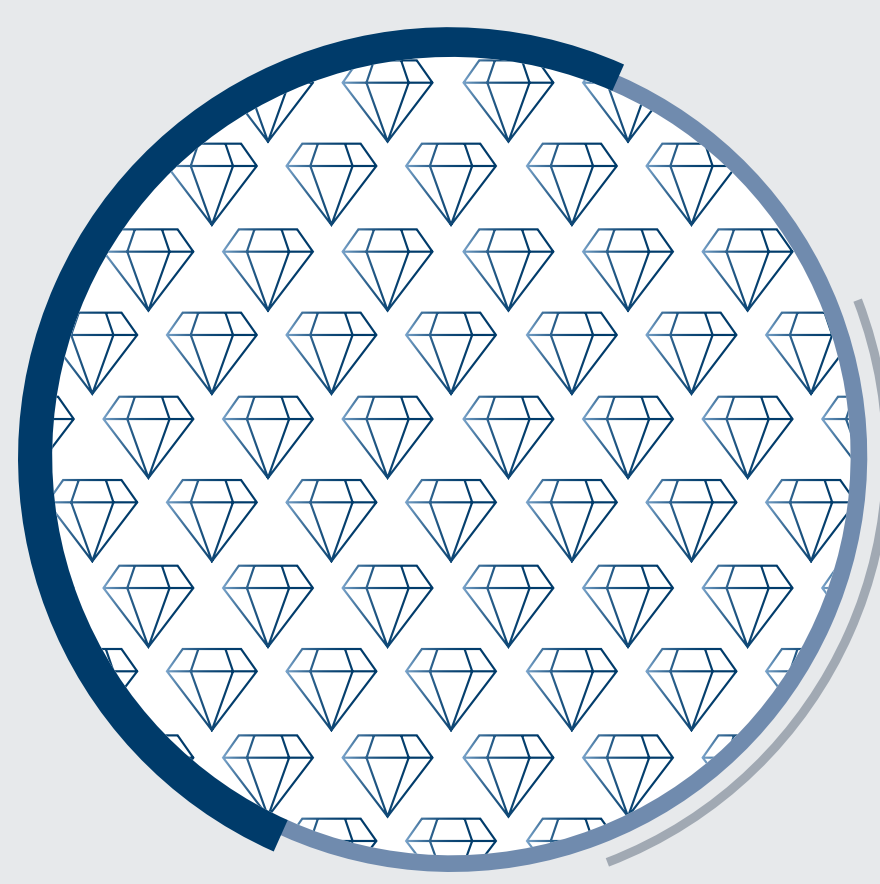

Advanced 'matrix' of metal and diamond grits optimised for endurance.

## THE DIFFERENCE IS IN THE MATRIX

Optimum Layout of Diamond Grits

Random layout of many Diamond discs

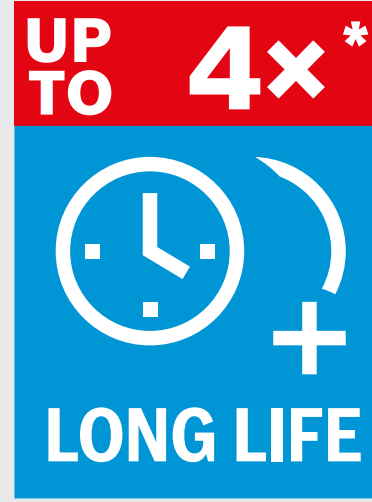

High tech layout of EXPERT discs

## THE LONG LIFE ADVANTAGE

Diamond Technology Makes More Cuts in Tough Materials.

Standard Disc

6 m<sup>2</sup>

REINFORCED CONCRETE

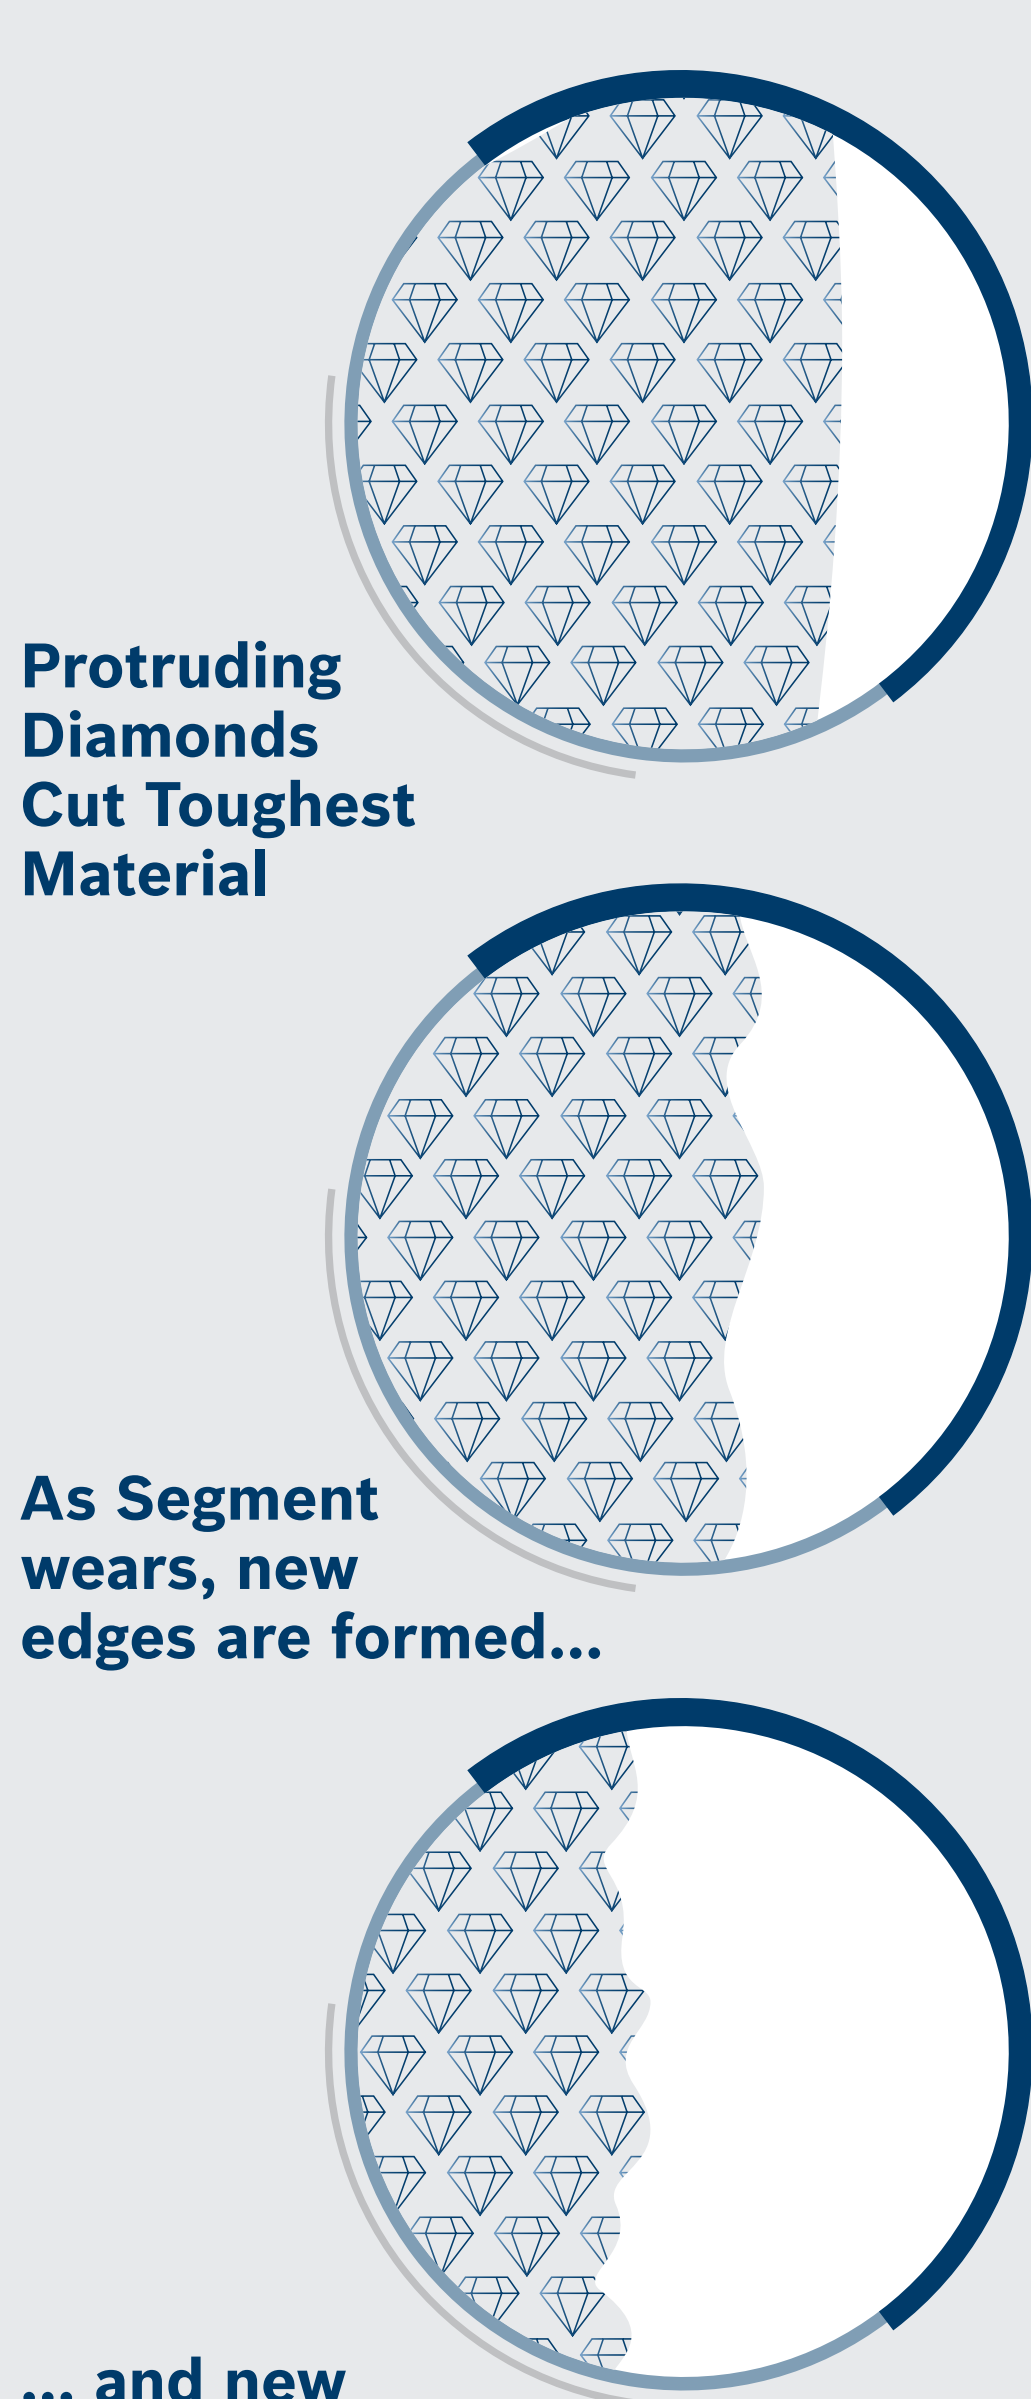

EXPERT MultiMaterial Disc

25 m<sup>2</sup>

## HOW DOES IT STAY SHARP?

As Segments Slowly Wear, New Diamond Edges Emerge

Protruding Diamonds Cut Toughest Material

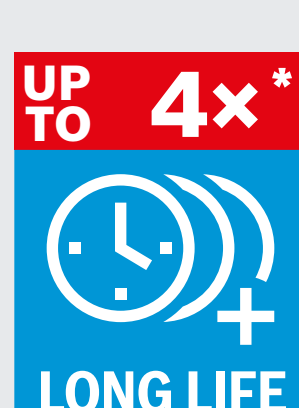

As Segment wears, new edges are formed...

... and new grits are exposed.

Diamond Grits in Metal 'Matrix'

EXPERT Disc Stays Sharp Over A Longer Lifespan

**LONG LIFE ACCESSORIES MEAN BETTER VALUE AND CONSISTENT, HIGH QUALITY WORK. WORK THE EXPERT WAY, WITH BOSCH DIAMOND TECHNOLOGY.**
