THE 18V BITURBO TEST

Create your video now.

WELCOME TO THE 18V BITURBO TEST

Your BITURBO tool is here! Test it, tell us what you think, and capture it all on camera. As long as your video meets our terms and conditions, the tool is yours to keep – free of charge. Follow these simple steps to make BITURBO yours:

- 01 GETTING STARTED
- 02 TOOLS TO TEST
- 03 SAFETY FIRST
- 04 CREATE YOUR VIDEO
- 05 SHARE YOUR VIDEO
- 06 SUPPORT

01 GETTING STARTED

To keep the tool, you must upload your video within 4 weeks after receiving the package. That should be plenty of time for you to prepare – and these PRO tips will help make things even easier.

GET TO KNOW THE TOOLS & ACCESSORIES

Become a BITURBO expert. Read up on the tool and accessories – and get familiar with the specifications and special features in advance.

PLAN YOUR TEST IN ADVANCE

Come up with an authentic test scenario for the tool. Prepare your workshop or jobsite for the shoot and make sure you have all the materials (timber, metal, concrete, cabinets, etc.) necessary to really put the BITURBO tool to the test.

CHECK THE SAFETY REQUIREMENTS

Check the safety requirements on the next page...

02 TOOLS TO TEST

BITURBO BRUSHLESS CIRC SAW

GKS 18V-68 GC

- BITURBO BRUSHLESS MOTOR:**
 Maximum cordless cutting performance, fully equal to corded 1,800 W due to new BITURBO Brushless technology.
- POWER, PERFORMANCE:**
 68mm cutting capacity and plunge feature. Extended runtime with ECO mode and 6 speed settings.
- SAFETY, ERGONOMICS:**
 NEW front D-handle for safe, easy cuts on 45 angle & 0.5sec braking system.

Saw blade size	184mm (7-1/4")
Bore size	20mm
Bevel capacity	50°
Depth adjustment	Y – standard
Cutting capacity	68mm
Weight w/o battery	4.0kg
Dimensions (LxWxH)	397x211x289

1800 W

WORLD'S MOST POWERFUL CORDLESS SDS PLUS HAMMER*

GBH 18V-34 CF

- PARAMOUNT PERFORMANCE WITH 5.8 J**
 The most powerful cordless SDS plus hammer in its range for tough jobs in concrete delivering up to 950W of power.
- POWER, PERFORMANCE:**
 Soft start for precise chiselling and 3 different working modes to ensure the right setting for any job.
- SMARTEST SDS PLUS HAMMER:**
 Real-time tool status via user interface, individual adjustments by Bluetooth via Bosch Toolbox app.

Equivalent corded input power	950W
Max. Impact energy	5.8J
Rated speed	500rpm
Impact rate	2,900bpm
Possible drilling diameter (Concrete)	8-32mm (optimal: 12-30mm)
Weight excl. battery	4.9kg
Vibrations (Drilling Chiseling)	11m/s ² 11m/s ²

* As of February 2020. 5.8 joules of impact energy according to EPTA-Procedure 05:2016.

THE WORLD'S STRONGEST DRILL*

GSB 18V-150 C

- WORLD'S STRONGEST DRILL:**
 Delivers unrivalled power with 150Nm and 2,200 rpm maximizing your efficiency on the job site.
- SWITCHABLE KICKBACK CONTROL:**
 Reduces the risk of sudden rotational torque reaction and therefore offers perfect tool control at any time.
- WORLD'S FIRST ELECTRONIC ANGLE DETECTION:**
 Ensures always the right angle of long screws.

Max. torque (max/hard/soft)	150Nm / 100Nm / 84Nm
No-load speed (1st / 2nd gear)	0 – 550 rpm / 0 – 2,200 rpm
Max. impact rate	30,000 bpm
Max. drilling diameter in wood	150mm
(Switchable) Kick-Back Control	yes
Electronic Angle Detection	yes
Connectivity module	yes

BITURBO SDS MAX ROTARY HAMMER

GBH 18V-45C

- BITURBO BRUSHLESS MOTOR:**
 Delivering up to 1500W of power – INDUSTRIAL performance in cordless tools.
- POWER, PERFORMANCE:**
 12.5J impact force with chisel lock-on feature.
- SAFETY, ERGONOMICS:**
 KickBack Control for reduced hazard of sudden tool reactions and Soft Start EPC & ASC for a comfortable and precise work process.

Impact energy	12.5 J
Impact rate at rated speed	0 – 2,740 bpm
Rated speed	0 – 300 rpm
Weight excl. battery	8 kg
Tool holder	SDS max
Equivalent to Corded Power	1500W
Vibration (Drilling Chiselling)	8.5m/s ² 7.5m/s ²

BITURBO
BRUSHLESS

BITURBO BRUSHLESS 1/2" HIGH TORQUE WRENCH

GDS 18V-1000

- BITURBO BRUSHLESS MOTOR:**
 Delivering up to 1,600Nm of torque – INDUSTRIAL performance in cordless tools.
- POWER, PERFORMANCE:**
 Best performance for heavy duties with a tightening torque of 1,000 Nm and a breakaway torque of up to 1,600 Nm.
- CONTROLLED POWER:**
 High versatility and controlled power due to 3-speed/torque settings.

Max tightening torque	1000Nm
Max Breakaway torque	1600Nm
Speed settings	3
No load speed	0-800 rpm/1.200 rpm/1.750 rpm
Impact rate	0-1.600 bpm/2.400 bpm/2.600 bpm
Torque	0-350 Nm/700 Nm/1000 Nm
Machine screw diameter	M10-M24

BRUSHLESS

BITURBO 216MM DUAL BEVEL BRUSHLESS MITRE SAW

GCM 18V-216 DC

- BITURBO BRUSHLESS MOTOR:**
 Maximum cordless cutting performance fully equal to corded 1.600 W.
- INDUSTRY LEADING CUT SIZE:**
 70 x 312mm cutting capacity.
- DUAL BEVEL:**
 Maximum performance with 47 degree left and right bevel.

No-load Speed (RPM)	2500 - 4500 1/min
Saw Blade Diameter	216mm
Cutting Capacity 0° (Vertical)	70 x 300mm
Cutting Capacity 0° (Horizontal)	65 x 312mm
Cutting capacity 45° mitre	65 x 21mm (L), 65 x 21mm (R)
Cutting capacity 45° bevel	40 x 300 (L), 20 x 300 (R)
Miter Setting [L°/R°] Bevel Setting [L°/R°]	52° / 60° 47° / 47°

BITURBO 125MM X-LOCK PADDLE SWITCH GRINDER

GWX 18V-15 PSC

- BITURBO BRUSHLESS MOTOR:**
 Performance fully equal to corded 1,500W with Fast cutting and high material removal rate.
- MARKETS SAFEST GRINDERS:**
 Enhanced user protection thanks to PROtection switch, super-fast X-Brake, and KickBack Control.
- CUSTOM SETTINGS:**
 Individual speed setting adjustments with HMI and Bluetooth connectivity.

Equivalent corded input power	1,500W
Disc Diameter	125mm
No-load speed	3,400-9,800 rpm
AC change system	X-LOCK
Switch	non-lockable paddle
Cutting depth	34mm
Weight w/o battery	2.3kg

03

SAFETY
FIRST

BITURBO tools are extremely powerful and need to be handled with caution. Make sure you have the necessary safety gear for handling your tool, e.g. safety glasses, earplugs, etc.

SAFETY REQUIREMENTS

Here are a few important safety requirements that you need to keep in mind when using the tool in your video. We have provided some basic safety equipment along with the BITURBO tool, but you are expected to follow the recommended safety requirements in full as described in the tool's user manual.

If you don't follow the safety guidelines, you will be obliged to remove the video from social media – and you will no longer be able to keep the tool!

04
CREATE
YOUR
VIDEO

Ready to roll? Here are a few PRO tips for creating great video content:

DO

- **Be honest and insightful:** We're not looking for a sales pitch, we're looking for an expert review by a professional tradie. Choose a true test scenario and make it insightful: What do you like about BITURBO? How does it make hard work easier?
- **Show the best angles:** Make sure viewers can clearly see your test up close in the video.
- **Use the right format & licence-free music:** Video length should be between 30 seconds and 5 minutes. If you use music, please make sure it is royalty-free.
- **Use good lighting & sound:** Make sure you and the tool are clearly visible. Do a sound-check before filming. A good location can make all the difference!
- **Use a tripod (or cameraperson):** Filming yourself is amateurish at best, and dangerous at worst! Ask a mate to do the filming for you.
- **Show tools on their "sunny" side:** Viewers should be able to see the Bosch logo and model name.

DON'T

- ... **forget to wear your safety gear on film.** PROs put safety first. Plus: It's a legal thing.
- ... **multi-task while filming.** Only talk to the camera before or after using the tool. It's safer for you and this way the noise of the tool won't prevent viewers from hearing what you have to say.
- ... **film third-parties** without their consent or let third-parties handle the tool.
- ... **show tools from other power tool brands** in your video.

You can create as many videos as you like!

05

SHARE YOUR VIDEO

Woohoo! You're ready to share?
Then let's get down to business...

**POST THE VIDEO TO YOUR SOCIAL MEDIA CHANNEL(S)
WITHIN 4 WEEKS OF RECEIVING THE TOOL*:**

- **Use these hashtags** so all participants can see your video:
#BITURBOtest
#boschprofessional
- **Make sure** your accounts are set to public so that your videos are viewable.
- **Check out** other videos and share, comment, like away!

AND TELL US WHERE YOU'VE POSTED! WITHIN 4 WEEKS OF RECEIVING THE TOOL, YOU MUST USE THE LINK PROVIDED IN OUR EMAIL TO SHARE YOUR VIDEO WITH US.

Clearly mark your video and/or post as an "advertisement" or "promotional video"

* The guidelines of the respective platform provider must be strictly observed. If the participant does not comply with these regulations and Bosch becomes aware of this, the participant shall be obliged to delete the posting immediately at the request of Bosch. Bosch shall also be entitled to exclude the participant from the promotion.
When making the video, data protection regulations must also be observed. In particular, third parties must not be filmed without their consent.

BITURBO
BRUSHLESS

06

... AND THAT'S IT!

As long as you follow these simple steps and guidelines, the BITURBO tool is yours to keep.
